Which report was agreed to.

The Assessing Committee was instructed to confer with the City Solicitor in regard to the assessment of Mrs Wallace on Park Ave.

Shuckler moved, seconded by Troy that Messrs. W. W. Webb, H. B. Haggard, A. Armstrong be appointed a appraisal committee as provided for by the report of the assessing committee on the assessment of O. A. Davis, and G. C. McCarthy.

The assessing committee to whom was referred the assessments on Lot 4462 4471 4480 on Auld Street Grading submitted the following report.

With reference to the grading of Auld Street referred to in the above, we have made some investigation and find according to the best information that we have been able to secure, that at the time of the contract for grading this street, during the year 1909, there was no established grade on that part of the street on which these lots front.

The com on Asst reported on the claim of O. A. Davis.

Assessing Com instructed to confer with City Solicitor in regard to Asst of Mrs Wallace

Assessing com reported on Asst on Lot 4462, 4471, 4480, Auld Street Grading.

that other parts of the street on which a grade had been established were put to grade under this contract. that some filling was done on the part of the street in front of these lots but there was not sufficient filling done to bring that part of the street to the grade which has since been established, consequently this grading will now have to be completed in connection with the paving contract now under way.

As to whether or not a legal assessment can be made against these lots for this former grading improvement, under these conditions, we think this a legal matter which should be referred to the City Solicitor for an opinion and would recommend accordingly.
