Reports
The Street & Alley Committee to whom was referred the request of Geo Obey Report as follows. In our Opinion a Boy drain should be placed in the Alley between Main & Market Streets beginning at the Public Square and running west to the Sewer near the C Y + P R R. We think this will prevent the water from collecting on Main

Street and will afford drainage for Market Street M Earley Levi Hill J S Cassaday Committee
 Williams Moved the report be received
 2nd by Myers & Carried

Report of Committee to whom was
 referred the matter of lighting village with
 Electric Lights as follows

In our opinion
 the entire village should be lighted with electric
 light, to take the place of gas light. We suggest
 that the question whether to light the entire
 village with electric light or not be submitted
 to the qualified voters of said village. If decided
 to have the same, that the contract be let to the
 lowest and best bidder.

We think Mainstreet should not be lighted with
 electric light until after the question of lighting the
 entire village is determined as it will prevent
 letting the contract for the entire village.
