ANNUAL FIRE INSPECTIONS TO BEGIN

April 16, 2018 (Alliance, Ohio) – The Alliance Fire Department is now scheduling and preparing to conduct annual fire inspections for all commercial properties in Alliance for 2018. The inspection checks life safety items such as extinguishers, emergency lighting and exits, hazardous material storage, and housekeeping items as they relate to fire safety.

This inspection is not new to Alliance, and is required by State and local regulations of all occupied (as opposed to registered vacant) commercial properties. All owners and occupants of commercial properties who do not have an inspection conducted and correct any deficiencies may be subject to applicable penalties. The only exception to this requirement is for commercial properties which have been registered as vacant.

For any questions regarding the inspection or to schedule an inspection, please contact the Alliance Fire Department during regular business hours at (330) 821-1213. For any questions regarding registration of vacant properties, please contact the Alliance Planning and Development Department during regular business hours at (330) 829-2235.
