

## DIRECTOR'S ORDER

### **In Re: Order to Limit and/or Prohibit Mass Gatherings in the State of Ohio**

I, Amy Acton, MD, MPH, Director of the Ohio Department of Health (ODH), pursuant to the authority granted to me in R.C. 3701.13 to "make special orders...for preventing the spread of contagious or infectious diseases" **Order** the following to prevent the spread of COVID-19 into the State of Ohio:

1. Mass gatherings are prohibited in the State of Ohio.
2. Mass gatherings are defined as any event or convening that brings together one hundred (100) or more persons in a single room or single space at the same time, such as an auditorium, stadium, arena, large conference room, meeting hall, theater, or any other confined indoor or outdoor space. This would also include parades, fairs and festivals.
3. For the purpose of clarity, a mass gathering does not include normal operations at airports, bus and train stations, medical facilities, libraries, shopping malls and centers, or other spaces where 100 or more persons may be in transit. It also does not include typical office environments, schools, restaurants, factories, or retail or grocery stores where large numbers of people are present, but it is unusual for them to be within arm's length of one another.
4. A mass gathering also does not include athletic events that exclude spectators. Athletic and other events do not need to be cancelled or postponed if spectators and other attendees are excluded.
5. This Order does not apply to and/or excludes immediate family members of participants in the athletic or other event, as well as anyone necessary for the event to take place.
6. This Order does not apply to and/or excludes members of the media.
7. This Order does not apply to and/or excludes religious gatherings, gatherings for the purpose of the expression of First Amendment protected speech, weddings and funerals.
8. This Order shall take effect immediately and remain in full force and effect until the State of Emergency declared by the Governor no longer exists, or the Director of the Ohio Department of Health rescinds or modifies this Order.
9. To the extent any public official enforcing this order has questions regarding the definition of mass gathering under this Order, the Director of Health hereby delegates to local health departments the authority to answer questions in writing and consistent with this Order.

10. Regardless of whether an event or gathering falls within the definition of mass gathering, all persons are urged to maintain social distancing (approximately six feet away from other people) whenever possible and to continue to wash hands, utilize hand sanitizer and practice proper respiratory etiquette (coughing into elbow, etc.)

COVID-19 is a respiratory disease that can result in serious illness or death, is caused by the SARS-CoV-2 virus, which is a new strain of coronavirus that had not been previously identified in humans and can easily spread from person to person. The virus is spread between individuals who are in close contact with each other (within about six feet) through respiratory droplets produced when an infected person coughs or sneezes. It may be possible that individuals can get COVID-19 by touching a surface or object that has the virus on it and then touching their own mouth, nose or eyes.

Currently, the Centers for Disease Control and Prevention (CDC) lists over 110 countries with confirmed cases of COVID-19. The World Health Organization reports over 118,000 diagnosed cases worldwide with 4,200 deaths reported worldwide. The CDC has announced 1,215 confirmed and presumptive positive cases, with 36 deaths reported from the disease in the United States.

On January 23, 2020, the Ohio Department of Health issued a Director's Journal Entry making COVID-19 a Class A reportable disease in Ohio.

On January 28, 2020, the Ohio Department of Health hosted the first statewide call with local health departments and healthcare providers regarding COVID-19.

On January 30, 2020, the International Health Regulations Emergency Committee of the World Health Organization declared the outbreak of COVID-19 a public health emergency of international concern.

On January 31, 2020, Health and Human Services Secretary, Alex M. Azar II, declared a public health emergency for the United States to aid the nation's healthcare community in responding to COVID-19.

On February 1, 2020, the Ohio Department of Health issued a statewide Health Alert Network to provide local health departments and healthcare providers with updated guidance for COVID-19 and revised Person Under Investigation (PUI) criteria.

On February 3, 2020, the Ohio Department of Health trained over 140 personnel to staff a call center for COVID-19, in the event it was needed.

On February 5, 2020, the Ohio Department of Health began updating and notifying the media of the number of PUIs in Ohio every Tuesday and Thursday.

On February 6, 2020, the Ohio Department of Health updated all agency assistant directors and chiefs of staff on COVID-19 preparedness and status during the Governor's cabinet meeting.

On February 7, 2020, the Ohio Department of Health and the Ohio Emergency Management Agency met to conduct advance planning for COVID-19.
