

### **Excavation in the Right of Way Permit**

Contact the Alliance Engineering, Building and Zoning Department at (330) 823-5122, 504 E. Main St., Alliance OH, 44601. Provide the following information:

- Address of work.
- Closest cross street.
- Type of repair work being done.
- Property owner's contact information.
- Contractor's contact information.
- (Contractor must register or be registered - provide liability insurance & Workman's Compensation Certificate.)
- Contractor must follow City of Alliance Roadway Excavation and Repair Standard Drawings and other applicable standards.
- Contractor must call for inspections.
- For single family residential repairs, the Contractor performs saw cuts and removal for one foot ledge of undisturbed pavement around excavation. Contractor backfills excavation to flush street level, and is responsible for maintaining excavation until permanent repair can be made. City of Alliance Street Department returns to perform concrete and/or asphalt repair.
- For multi-family, commercial, and industrial sites and new installations, the Contractor is responsible for full final repair of the roadway.

Cost is \$25 plus the cost of the Concrete and/or asphalt repair.
